—McBride in St. Louis Republic

This photograph was taken while President Roosevelt was addressing the officers and men of the flagship Connecticut when the battleship fleet returned to Hampton Roads. The President stood in the drizzling rain on the after turret of the vessel and complimented the crew and thanked them in the name of the people of the United States for their excellent behavior and gallant conduct on the world cruise.

This ought not to be thus.

**Seabreeze News**

**SEABREEZE** Mar. 19.—The Twice a-Week Bridge Club met with Mrs. W. R. Davis, of Halifax avenue, last night, and had a most enjoyable evening. Dainty collections and cakes were served.

Mr. Wells is having cement sidewalks laid on his property on Ocean boulevard and before another winter season opens Ocean boulevard will have cement sidewalks on both sides along its entire length from river to ocean.

Mr. and Mrs. Waterson Mr. and Mrs. Correll, Mr. and Mrs. McHardy, Mrs. Robertson and Miss Stone made up a pleasant boat party for a day's fishing at the inlet.

Mr. and Mrs. McLanahan invited a few friends to a river trip in their launch yesterday afternoon. Mrs. Davis and little daughter, Cornelia, and Miss Phillips were among the privileged few.

Mrs. Campbell, of Omaha, Neb., is a guest at The Mayfield.

Mrs. Alderson, who has been at the Seabreeze Sanitarium for several weeks, is sufficiently recovered to join her sister at The Mayfield.

Mr. and Mrs. Dobbins, who are occupying one of the Clarendon cottages, are taking their meals at The Mayfield.

Professor Homer E. Wakefield has just purchased the property which he and his family are occupying on Oakridge boulevard, belonging to Miss L. Blakeslee. The property includes the yellow cottage and the small octagon room and windmill improvements. This news item will be read with much satisfaction by the entire community. Mr. and Mrs. Wakefield have made many warm friends in the two peninsula communities during their stay here.

Intuition.  
"What became of that rich uncle of yours?"  
"I think he's dead, but I don't know."  
"Gee! How did he lose all his money?"—Cleveland Leader.

The Example.  
Professor (lecturing on hygiene)—To-bacco, gentlemen, makes men ugly, short winded, idiotic, paralytic, and I can tell you this from experience, for I have smoked for many years!

**Doings at Daytona Beach**

DAYTONA BEACH, March 19.—The Town Council met in special session Wednesday night, and granted to E. L. Potter exemption from real estate and occupation tax, also exempt from license tax for a period of ten years, provided he would build a hotel at Daytona Beach. A committee was appointed to wait upon Dr. Potter and offer him anything further that was in the Council's power to lawfully concede him. It is understood that Dr. Potter accepted the terms and conditions, and the matter is finally settled. It is also understood that J. W. Erregger and E. Oliver have agreed to deed a fine site on the ocean front with large grounds for hotel purposes, and the peninsula will retain Dr. Potter as a resident citizen.

Mrs. M. L. Jones and granddaughter, Miss Lizzie Lee, of Grenada, Miss., will arrive Sunday on a visit to the Misses Wilbourne, on Pinewood avenue, on their way to Palm Beach, Miami and Cuba.

Mrs. Minerva Barze, mother of Rev. Barze, arrived from Barnesville, Ohio, and will make her home with her son. Rev. W. A. Robinson, corresponding secretary of the Elizabeth Gamble Deaconess Home at Cincinnati, Ohio, will preach at the eleven o'clock service at the M. E. Church Sunday.

E. B. Hendrix, of Terre Haute, Ind. is a recent arrival at the White House. George D. Curtis and others at the Seaside Inn, chartered the Wide-a-Wake for a trip to the Inlet today.

O. P. Decker, of Chicago, arrived yesterday and is at the White House.

The Label Failed.  
Gunner—You can't get the best of those blamed baggage smashers. I labeled my trunks "China" and thought they would handle them with unusual care. Guyer—And did they? Gunner—No, but blamed if they didn't ship the trunks all the way to Shanghai, and I haven't seen them since.—Chicago News.

A Slander.  
Every time a girl wants to find anything in her top bureau drawer she gets a stick and stirs everything in the drawer round and round. If what she is looking for doesn't come to the surface, then she is satisfied it isn't there.

**The Modern  
Seven Wonders**  
Daytona's incomparable Ocean Beach.  
One of Daytona's crowning glories is  
her incomparable beach. No one who  
ever set foot upon its smooth, packed  
sands; no one who ever pedaled a bi-  
cycle over its expanse; no one who ever  
drove a prancing pair of horses and list-  
ened to the popping of their steel shoes  
upon its asphaltum-like face; no one  
who ever steered a high-power automo-  
bile down the broad stretch of wave-  
washed and surf-packed sand but re-  
alized that it is a world-beater, a world-  
winner. Go stand upon this wide  
speedway and see the happy souls fit-  
ting in joyous mood, and answer whether  
this is not one of the seven modern  
wonders.

**The Placid, Pelucid Halifax River.**  
Where think you is water with more  
picturesque surroundings? Nearly a  
mile wide, fringed with tropical vege-  
tation, artistic cottages with roomy ve-  
randa's looking out upon her bosom,  
gamey food fishes in countless numbers  
beckoning, as it were, to those with rod  
and reel; her bosom flecked with duck  
and coot and snowy-winged sea birds,  
which sit about as if for the sport of  
bobbing upon her waves; watch that  
lubberly old white headed pelican perch  
a fat mullet, and that fish hawk strag-  
gling upward with his floundering load  
he snatched from the water.  
See the beautiful launches, spick and  
span, their hampers and lockers bulging  
with refreshments both solid and liq-  
uid ready for a cruise upon her beautiful  
surface. Take out your field glass and  
sweep the river from Ormond bridge to  
Ponce Park light house, then say  
whether the Halifax isn't a thing of  
beauty and a joy forever, and one of  
the modern wonders.

**The Enchantingly Picturesque Ridgewood.**  
Ridgewood avenue is upon the crest of  
a broad ridge, straight as the crow flies,  
and the wide-spreading branches of the  
heavy-trunked live-oaks extend their  
great arms across this magnificent vista,  
forming an arch, and from these extended  
arms great festoons of Spanish moss  
sway as the trade winds from tropic seas  
fan them. Looking straight ahead down  
this white shell street one has the im-  
pression of a fairy path with elfish  
draperies, but as you move along and cast  
an eye first to the right and then to the  
left you see distinguished cottage homes  
in the most delightful settings.

**Surpassing Beauty of Our Cottage Homes.**  
No one of Daytona's attractions, per-  
haps commands more nearly universal  
attention and praise than does the artistic  
village. The owners of these charm-  
ing villas hail from every corner of the  
country and they bring their own archi-  
tectural plans and build upon them, and  
as the architecture of one section of the  
country differs from the architecture of  
another so do our homes differ in out-  
ward appearance and structural beauty  
from one another. There are no monoton-  
ous rows of strikingly similar buildings  
but the eye, as it sweeps by, is treated to  
a kaleidoscopic change which keeps  
the mind wondering "What next?"

**Streets and Pavements the Most and Best.**  
Why the Architect of the Universe  
chose to give to Daytona the most ad-  
mirable, the most picturesque natural  
setting of all the cities of the South is  
not revealed but that such is a fact  
must be apparent to the most superficial  
observer. With such lavish wealth of  
natural beauty it became an easy thing  
for the hand of man to give the little  
finishing touches which have brought  
out the colors and outlines of the big  
picture.

Man did all this in the laying out of  
the streets with their wide margins of  
parkage, the entire city becomes a  
great park  
And as for pavements, pavements  
that look and act like granite,—where  
else between the eastern and western  
seas are so many miles in proportion to  
inhabitants? Till some unheard-of  
place reports more and better, Daytona  
throws down the gauntlet to the world.

**Squirrels, Flowers, Birds and Fruits.**  
Whatever one's shortcomings and  
however indifferent or even callous one  
may be to many things, the mere men-  
tion of "squirrels and flowers, birds and  
fruits" will send a thrill that is reflected  
in distended pupils and pricked ears.  
For every visitor with a spare "goo-  
ber" there is a bunny ready to come out  
and accept your gift. He will sit bolt  
upright and gnaw into the meat, casting  
furtive, saucy glances at you meanwhile.  
Flowers! Usually fresh and blooming  
the year 'round. In one yard roses of  
variegated hues predominate, another  
has a penchant for the poinsettia and the  
premises are aflame; another is hid-  
den in a jungle of tall cane.  
The birds flit in, and with their joyous  
notes help to give fullness and symme-  
try to the picture.  
As for fruits, choice citrus fruits, Day-  
tona yields the palm to none for quality  
and quantity per acre. There are scores  
of citrus groves in proximity to the city,  
branches bending to the earth with their  
burdens of luscious golden globes.

**The Fastest Autos And The Finest Out.**  
Here is where world's records for speed  
are broken with every recurring season.  
Autos the biggest, the fastest and the  
finest are on daily parade and the big  
show is as free as the pure artesian  
water from the thousand flowing wells.  
It is a continuous show with constantly  
shifting scene. You will probably catch  
the spirit and when you do the roads  
and the beach are yours. The Florida  
sunshine is free, the balmy ocean  
breezes are free, the birds and squirrels  
and flowers are free, the sparkling  
fountain water is free and you will have  
to go down in your wallet only for coin  
for the auto and bed and board.  
This is no fanciful picture; it's all  
here. It is drawing other thousands  
and hiding them enthralled, it will  
charm and hold you. Come and see.

**ORIENTAL RUGS.**  
Made to Resemble the Antiques by  
Chemical Washings.

The United States buys annually  
many thousand dollars' worth of what  
are known to the profession as wash-  
ed rugs. Brightly colored oriental rugs  
sometimes are washed with a solution  
of chloride of lime, a treatment which  
partly bleaches the colors and imparts  
a soft appearance to the rug.

This chemical treatment is a process  
of washing which produces the effect  
of age and a peculiar sheen to the sur-  
face, which is pointed out by the un-  
scrupulous dealer as a proof of superi-  
or quality. The fact is that the pro-  
cess of washing as described invariably  
weakens and in some instances de-  
stroys the materials of the rug.

The progressive effect of the chemi-  
cals on the materials in the rug is this:  
The chloride of lime attracts oxygen and  
moisture from the air, by which muri-  
atic acid is formed. This eats away the  
vitals of the rug. Sooner or later the  
wool and cotton in the rug become  
brittle and thus weaken the warp and  
deteriorate the wool.

When this deterioration is complete  
the pile of the rug may be swept away  
by the ordinary process of sweeping,  
and the warp, which is the foundation  
of the rug, becomes so weak that holes  
appear here and there, and soon the  
rug is worthless.

It not seldom happens that a Persian  
rug is too startling in some bright hue,  
perhaps red, and is not salable. The  
unscrupulous dealer will subject the  
rug to a series of washings in chemi-  
cally prepared water. In this way he  
turns out a rug possessing a soft an-  
tique sheen that is truly captivating  
and finds a ready purchaser at an ad-  
vanced price.—Chicago Tribune.

**PANHANDLE PETE,**  
NOT CIVIC LEAGUE.  
(Continued from First Page)  
handling; discussed sewerage needs, and gave a lengthy and interesting talk on salt and fresh water variety of mosquitoes, and explained the importance of keeping down the fresh water kinds, those that carry infectious diseases.  
Dr. Stewart said typhoid germs are brought into the city from without the limits, often by flies. He emphasized the importance of strict sanitary inspection of dairies, meat markets, premises. He said fruit should not be exposed on the street as various floating germs gain a lodgement thereon.  
Upon request of the president, Dr. Henry Mitchell, of Daytona Beach, responded and presented a plan for organization, as follows:  
Title—This organization shall be known as the Civic League of Daytona Seabreeze and Daytona Beach.  
Object—The purpose shall be to promote the prosperity of the localities represented in the membership; to increase the attractions of these localities as places of residence and as resorts for winter visitors and tourists; to secure co-operation among property owners for the protection of the public health; to improve the educational facilities; to encourage the establishment of public parks and the extension and maintenance of public roads; to protect and beautify the parkage; and to prevent injury to all public property; to encourage decorative planting; on private property and care of vacant lots; to foster the public library; to prevent needless waste of water from fire wells; to favor the making of foot paths for reaching scenic and forest beauties; to erect and maintain guide boards and the names of streets; to secure cleanliness in all places both public and private; to prevent the sale of impure, adulterated or unwholesome food; to encourage open-air concerts and all desirable amusements; to prevent the erection of unsightly bill boards; to cause the railway station and grounds to be made attractive; and to sustain every public enterprise which has for its purpose the improvement of local conditions, and to aid the local authorities in all good works designed to benefit the community.  
Dr. Mitchell's recommendations as to membership, officers, meetings, committees, etc., were practical and commended themselves to those present.  
Miss Thorp was elected Secretary-Treasurer, and the president appointed a committee of three, naming Editor G. B. Seaman, Hon. George H. Munroe and Mrs. Graham Thompson, whose duty it is to nominate officers to be voted upon at the next meeting of the League.  
Practical addresses were made by Dr. Mitchell, J. N. Gamble, George H. Munroe. Mr. Gamble dwelt upon the importance of making a park of the Island and said it is estimated that \$3500 will transform it from unsightliness to beauty, and he announced that within a short time some quite important improvements would be begun.  
The foregoing is a mere suggestion of what was said.

**Playing to Large Audiences.**  
The Lyceum Comedy Company played again last night to a packed tent, East Lynne being the attraction. The specialties in the concert following the regular performance were good, and the song "Holy City," with tableau in colored lights, was superb and brought hearty applause.  
Tonight they will give a musical comedy entitled, "How Wives Fool Their Husbands." Tomorrow afternoon they will give a southern play the "Kentucky Sheriff," closing the week here tomorrow night with that stirring western drama, "Jesse James."

**GILA MONSTER'S BITE.**  
The Reptile Turns Over to Get Venom Into Its Victim.  
It was his turning over habit that led me to the discovery as to the bite of the Gila monster. This creature, more like a short, stocky snake with legs on than anything else, has no poison fangs, like the rattlesnake, yet his bite may be just as dangerous. His poison teeth are in his lower jaw, and the poison comes from a gland under the tongue. If he bites without turning over the wound is not serious, but if he turns over there is great danger.  
Dr. Snow of the University of Kansas wrote me some time ago of an experience he had with the bite of a Gila monster.  
The reptile was caught and put in a bucket, the top of which was covered with paper. The bucket was then put in the wagon in which the doctor was driving. As the road was somewhat rough, the bucket was bounced up and down, and in order to steady it Dr. Snow put his hand behind him and took hold of the bucket, thrusting his fingers through the newspaper cover on its top so that he could hold it secure. Suddenly he felt the monster's grip on his fingers. Startled and somewhat alarmed, he carefully pried the jaws of the reptile open and released himself. The wounds were such as any ordinary bite would have made, and he suffered no more inconvenience than might have been expected.  
There are many stories current in Arizona and Sonora as to deaths that have occurred from Gila monsters' bites, but it is hard to get at the facts. Careful experiments made with animals show that when the reptile bites and turns over, so that the poison flows down the tooth grooves into the wound, the bitten creatures die in a short time.—Suburban Life.

**Work for Humane Society.**  
There are on Daytona streets two poor old emaciated, ramshackle animals, a brown mule and a gray horse, each driven by callous-headed Negroes, who ply mercilessly their whips. A Daily News representative has seen these poor dumb animals struggling to draw loads they are physically unable to draw, the drivers belaboring them with cruel strokes.  
If Daytona has't a Humane Society she ought to have—to look after such cases as these. Such animals should be led out and chloroformed.
